

NOTICE TO RESIDENT (S)

Dear Resident,

Please be advised that we will have a contractor in your apartment home # _____ on _____ to repair and/ or resurface your Bathtub. Your cooperation is greatly appreciated; we ask that you remove all items from your bathroom, such as shower curtain, pictures, and all items on the floor, vanity, bathtub and walls. Items in your cabinets may remain as they are enclosed. Please have your tub reasonably clean and dry. The work being done creates an odor and you may choose to be out of your apartment while the work is being completed and returning 2 hours after completion. If you have any pets please have them confined. You may use the Bathtub 36 hours after completion. (e.g. if the bathtub is completed 12 noon you may use it after 6 pm the next day.) It is advised that you vacate your apartment during and for 4 hours after the job is completed. Signed by Resident _____.

Please notify the office if you will not be ready on this date so we can make other arrangements.

Thank you,

Management Team
